

## TEC-LOCK™ Wedge Flush (TLWF) Connection Technology | Semi Premium

### Features

- Currently available in sizes ranging from 3.500 in. to 9.625in.
- Near Flush OD Optimized at API 1% OD Tolerance
- Wedge-style thread form
- Optimum run-out thread design for maximum axial efficiencies

### Benefits

- Near Flush box OD, provides additional clearance over standard TLW and less drag during installation
- Extreme high torque capability
- Undercut load and stab flanks ensure outstanding performance under extreme combined loads
- Tension efficiencies greater than 70%
- Compression efficiency 80%
- Ideal for refrac applications

### TEC-LOCK™ Wedge Flush provides premium performance at a semi-premium price.

When combined with SealLube™ thread sealant, TEC-LOCK™ Wedge Flush provides gas sealability on a product without a metal-to-metal seal, offering a cost-competitive alternative to premium connections.
