

Hunting 151 Series Swivels for Electric Line Slickline Downhole Tools

Hunting has offered the 151 Series E-Line Swivels for several years but has recently undertaken improvements and testing to offer better products to our customers.

Three Swivel sizes are offered to meet most requirements.

- 1-11/16" available with 1-3/16" 12 thread GO connections.
- 2-1/8" available with 1-3/16" 12 thread GO or SONDEX connections.
- 2-3/4" available with 1-5/8" 6 Acme Quick Change connections.

Swivel ratings:

- 10,000 psi.
- 121°C / 250°F.
- Amperage ratings now offered:
 - 4.0 amp @ 121°C / 250°F.
 - 10.0 amp @ 121°C / 250°F.

The Swivels are ideal for most logging and other E-Line applications where tool string rotation and/or torque must be minimized.

All Swivel sizes are now rated for use with appropriately sized perforating guns and setting tools. .
